## PARTS NUMBERING SYSTEM

---

All part numbers in this program contain the prefix ABP and either R42B or N10G (the company assigned codes for this program). The number following the N refers to the part segment and is different for each. The last six digits are assigned based on part and design.

Example – ABP N10G R950011

All Alliance Parts products in the catalog are set up with an Alliance part number. In the back of this catalog, you will find an extensive cross-reference list. This will help link another manufacturer's part to an Alliance ABP number.

## WARRANTY

---

Alliance products are backed by a 1-year/unlimited-mile standard warranty. Additional warranty coverage may apply where specified.

Illustrations and photographs used in this catalog may vary slightly from the actual product. Prototype samples are sometimes used for photography. The production parts may vary slightly.
