

RADIATORS

ALL-MAKES HEAVY-DUTY RADIATORS

Alliance Truck Parts has over 30 product lines that serve the commercial transportation industry with reliable new and remanufactured parts and accessories for all makes and all models¹ to keep trucks and buses on the road. All Alliance Truck Parts meet or exceed OES specifications for quality, fit and finish and are backed by a nationwide warranty², which means you don't have to trade quality for price.

ALL-MAKES HEAVY-DUTY RADIATORS

Illustrations and photographs used in this catalog may vary slightly from the actual product. Prototype samples are sometimes used for photography. The production parts may vary slightly.

Availability of products shown in this catalog is subject to change without notice.

PARTS NUMBERING SYSTEM

The Alliance Truck Parts numbering system is set up systematically:

Example – ABP N20 2001 1711.

All parts numbers in this program contain the prefix ABP and N20 (the company-assigned code for this program). The number following the N refers to the part segment and is different for each. The last six digits are assigned based on part and design.

All parts in the catalog are set up with an Alliance Truck Parts number. In the back of this catalog, you will find an extensive cross-reference list. This will help link another manufacturer's part to an Alliance ABP number.

WARRANTY

Alliance truck parts are backed by a 1-year/unlimited-mile standard warranty.

FEATURES & BENEFITS

1

FEATURES & BENEFITS

1. All-new radiator, including side straps and brackets.
2. All-aluminum construction improves thermal transfer while reducing weight and eliminating crimps and other failures common to plastic models.
3. Designed with side-rail stress relief cuts to reduce stress on the headers and allow thermal expansion.
4. Increased tube-wall thickness for durability and longevity.
5. Redesigned corner brackets to increase unit durability and improve ease of installation.
6. Radiator tubes are high-frequency welded, seamless tubes for strength and durability.
7. Every unit is leak- and fit-tested to ensure quality cooling and a proper OE-grade fit.
