

SLACK ADJUSTERS

ALL-MAKES HEAVY-DUTY SLACK ADJUSTERS

With parts and accessories for all makes and models¹, Alliance Parts is the smartest choice for value on the road. Readily available, easily affordable and assured in quality, Alliance has everything you need to deliver.

PARTS NUMBERING SYSTEM

All part numbers in this program contain the prefix ABP and N42AS (the company-assigned code for this program). The remaining digits are based on part and design.

Example – ABP N42AS 065175

All Alliance Parts products in the catalog are set up with an Alliance part number. In the back of this catalog, you will find an extensive cross-reference list. This will help link another manufacturer's part to an Alliance ABP number.

WARRANTY

Alliance products are backed by a 1-year/unlimited-mile standard warranty. Additional warranty coverage may apply where specified.

Illustrations and photographs used in this catalog may vary slightly from the actual product. Prototype samples are sometimes used for photography. The production parts may vary slightly.

Availability of products shown in this catalog is subject to change without notice.

¹For nearly all heavy-duty truck makes and models.

SLACK ADJUSTERS

SLACK ADJUSTER FAILURE

Proper brake stroke adjustment and maintenance are critical to roadway safety.

- Measure chamber stroke by checking the distance from the chamber to the pin with the brakes released vs. full brake application. Ensure that this distance is within maximum allowable specifications for your vehicle
- If an automatic slack adjuster has excessive chamber stroke, do not manually adjust it. Over-stroking is usually a sign of adjuster failure or a larger problem with the braking system
- Light-duty braking cycles are a common cause of brake over-stroking. If insufficient torque passes through the adjuster, it may not cause the ratchet within the adjuster to advance. If this continues, the automatic slack adjuster is no longer compensating for the normal wear of the brakes
- Recommended: On a regular basis, make a few full-pressure brake applications to cause the adjuster to turn over, and then visually check the stroke before leaving the yard

SPECIFICATIONS

MERITOR STYLE	
ALLIANCE P/N	SPECIFICATION
ABP N42AS R801074	1-1/2"-28 spline, 6.0" arm length
ABP N42AS R801073	1-1/2"-28 spline, 5.5" arm length
ABP N42AS R801041	1-1/2"-10 spline, 5.5" arm length
